EDUCATION

Netaji Subhas University of Technology <i>B.Tech (CSE with AI)</i>	2023 – 2027 CGPA: 7.48
Mount Carmel School, Dwarka <i>CBSE Class XII</i>	2023 92%
Mount Carmel School, Dwarka <i>CBSE Class X</i>	2021 89%

EXPERIENCE

GenAI Intern at Salescode.ai <i>Freelance</i>	May 2026 – July 2026 <i>Remote</i>
- Contributed to the AI Sales Coach product used to train and evaluate field sales reps by architecting and designing solutions across the backend, data pipelines, and frontend. - Analyzed, designed, and implemented automated test suites using Playwright, writing comprehensive unit, integration, and end-to-end (E2E) tests to drive up code coverage and ensure high-quality releases. - Collaborated closely with cross-functional teams on a live, multi-tenant production system, ensuring the platform remained stable and scalable.	
MERN Stack Developer <i>Freelance</i>	March 2025 – June 2025 <i>Remote</i>
- Worked effectively as a team player to architect and develop the frontend and backend for sKrapy, driving a highly scalable scrap management ecosystem. - Demonstrated a strong sense of self-motivation by independently developing and deploying a digital marketing platform for a US-based client by collaborating with creative teams to integrate branding elements and deliver a product users love.	

PROJECTS

AI Sales Coach (Sensei)	
- Architected and developed a scalable backend and frontend for an AI sales coaching platform utilizing FastAPI, PostgreSQL, real-time voice practice over LiveKit, and Kafka-driven post-call scoring. - Engineered secure and scalable system infrastructure by adding multi-tenant RLS, RBAC, and real-time notifications via FCM, SSE, and Redis pub/sub	
AayuLink (SIH Hackathon)	GitHub Link
- Designed a highly scalable digital medical identity system enabling real-time MDR pathogen tracing, infection control, and cross-hospital synchronization - Optimized system performance and improved metrics by reducing media latency by 60% through Cloudinary-MongoDB integrations.	

EXTRACURRICULAR ACTIVITIES

Bass Guitarist RudraDhwani (Fusion Rock Band)
Secured 3rd place at IIT Bombay's Battle of the Bands and 2nd place at Ashoka University's Battle of the Bands.

TECHNICAL SKILLS

Backend and Frontend: NodeJS, Typescript, ExpressJS, PostgreSQL, ReactJS, NextJS, Redis
Testing & Automation: Playwright, Automated Test Suites (Unit, Integration, E2E)
Languages Known: C++, Java, Python
GenAI & Tools: Anthropic API, Langflow, OpenAI, Prompt Engineering, Claude Code, Codex
Problem Solving: Solved 800+ DSA questions on LeetCode, GFG, CodeStudio.
